Lean Six Sigma Yellow, Creen & Black Belt

ORACLE NEXT EDUCATION 2023
back end developer

SKILLS

- Leadership
- Strategic planning
- Lean six sigma
- agile and scrum methodology
- extreme ownership
- erp | mrp | Industry 4.0
- Machine learning
- w.m.s | M.e.s
- business intelligence
- SAP |SAE
- Appsheet | DAX Power Bi
- Visual Basic Excel | Gsuite| R | Phyton
- MySQL |XAMPP
- Process improvement

LANGUAGES

English, Spanish ,German

EXPERIENCE

Plant Manager 2021 - 2022
ENTELEQUIA

- Led the successful implementation of new operating systems and processes to improve efficiency, reduce costs and ensure compliance with plant indicators.
- Use data analysis to identify trends and potential growth areas to develop solutions and improve production processes.
- Improve operational productivity by introducing new technologies and automating processes, increasing oee by 20%.

Plant Manager 2020 - 2021
METCO

- I established service standards for internal and external clients for the transfer of research technology to the pilot plant, bioproducts plant using artificial intelligence tools to predict variations in processes.
- Led research and development projects to identify new technologies and develop profitable processes.

COO 2018 - 2020
PLANTAMEX

- I used the DMAIC methodology to reduce lead time by 20%.
- I successfully implemented Lean Six Sigma process improvement tools such as: 5S, Kaizen, Value Stream Mapping, among others to increase efficiency and reduce costs.
- I identified areas of opportunity in existing processes and developed an action plan to achieve objectives.
- Promoted Digital Migration using the SGI blockchain to comply with international regulations (FDA, ASTA, ESA, EHIA and WHO), international standards (ISO, FSSC 22000, RAINFOREST, HALAL, KOSHER), and HACCP.

Production manager 2016 - 2018
BIOTEC LABORATORIOS

- Develop and implement operational policies and procedures to ensure efficient and effective operations.
- Monitor and analyze operational performance, identify areas for improvement, and implement changes to maximize efficiency.
- Manage staff, assign tasks, and evaluate performance to ensure employees meet organizational goals.
